Ethics in an AI World
Andy Benzo

What principles does my Code of Ethics from my Translator's Association enumerate?

_____

What governmental regulations or laws govern the translation profession in my jurisdiction? (For example, are translators required to be licensed or certified to perform professional services? To which legal standards must my professional services comply?)

_____

_____

What steps can I take to preserve CONFIDENTIALITY in my AI assisted translations?

_____

_____

What steps do I employ to maintain the INTEGRITY of my translations? (What procedures do I follow in fact-checking and source verification?)

_____

_____

Does the system I use have measures to continuously assess the quality of my translations?

_____

_____

ARTIFICIAL INTELLIGENCE IN TRANSLATION SUMMIT

What strategies do I have to avoid creating or reinforcing BIAS in my professional products?

_____

_____

Are there any measures I can employ to minimize potential harm to society or the environment?

_____

_____

Is there an Ethics review Board in my Association to discuss AI ethical practices?

_____

_____

How can I increase my prosperity through automation while preserving my work and not be displaced by AI?

_____

_____

_____

_____

ARTIFICIAL INTELLIGENCE IN TRANSLATION SUMMIT

How can we modernize our legal systems to make them more efficient and just, to keep pace with AI, and to manage the risks associated with AI?

_____

_____
