Lesson 1

For this lesson's activity, I would like to encourage you to spend some time in prayer as a response directly to God for His Story. If you like to journal, use the space below to write down your worship and praise to God for who He is, items of thanksgiving for what He has done for you, any prayer requests you might have in response to this Story, and/or a dedication of yourself for His plans and purposes. If you do not like to journal, I encourage you to still take time to close your time in prayer and praise.
