## Enjoy the RV Journey

Make 2024 the year you plan and take a bucket list RV trip! ~Mark J. Polk

Welcome back,

Those of you who follow me know I am an avid car guy. I always have a classic car or truck project I am working on. It just so happens, my current project is a great topic for this month's feature article. It is based on

how neglect of basic preventive maintenance and routine service intervals are costly for RV owners. It's a good short read.

Enjoy the newsletter, and as always if you have family or friends who like RVs and the RV lifestyle please share with them too.

## **This Month's Feature Article** **Neglecting RV Maintenance is Costly!**

I was looking for an older, first generation Cummins 5.9 diesel engine for a project I was working on. The reason for wanting this old of an engine was its reliability, and that it doesn't require computers and electronics for the engine to run. Eventually I found one in a marketplace ad that caught my eye. The ad said it was a re-manufactured Cummins engine that was removed from an older motorhome.
