

## Student Instruction Worksheet: Pre-Flight Checklist

**Instructions:** Check each item as you complete the pre-flight inspection of your drone.

- Inspect the drone frame for any damage or loose parts.
- Ensure all motors are securely attached and free from obstructions.
- Check that all propellers are securely fastened and undamaged.
- Verify that the battery is fully charged and properly installed.
- Test the camera for proper operation and clear lens.
- Check that the controller is functioning and batteries are charged.
- Conduct a calibration.
- Perform a system check (firmware updates, connection stability, if needed).
