How do you learn best, and why is it important to be aware of this?

What signs & symptoms would a student get or show if their seat was too close?

Get in your own car, press each pedal and play around. Describe how each pedal feels different?

How do you know if your car is *about* to stall?

How do you know if your car *has* stalled?

Should we set gas first, then bite? Or bite first, then gas? Why?

Tip: Look in Driving the Essential Skills!

How would a student know if the car was ready to drive without needing to look at the rev counter?

What does the DT1 (examiners guidance for driving tests) say about steering?

List some things that you are going to add to your **Toolbox?**
