FAQ - Frequently Asked Questions

support.teachable.com has all the answers!

Remember your password!!!

Where can I find " _____ "?

I have listed the sources I use. If you live outside the United States, you may have to look for local sources of these materials. The quickest way to locate something is often to do a Google search or an Amazon search.

How long are these PDFs and videos available to me?

How does forever sound? Once you purchase it, there is no expiration date. Just remember your Teachable sign-in information.

Is there a DVD I can purchase for this course?

No. This is an online course. You receive it via a high speed internet connection.

Will there be other teaching videos added to Carol Nelson Mixed Media Art on Teachable?

YES! It is my intent to make future videos available through Teachable. **How to Paint Geologic Abstracts** is the first video I've created myself. Admittedly, I'm a novice at creating video workshops. My other video, **New Approaches to Mixed Media Materials**, was created by Craftsby. I went to their studio for days of filming, but all the editing and marketing was done by Craftsby.

Why is this video more expensive than your Craftsby video?

Craftsby has 5 million + subscribers around the world. With that size marketing audience they can offer lower prices. Students at my in person workshops pay between \$180 to \$230 to be in a six hour class covering this material.

Will there be a way for students to communicate with one another and share their work?

Yes! Join our private Facebook group.

What is the difference between the school, Carol Nelson Mixed Media Art, and the course, How to paint Geologic Abstracts?

My school, called Carol Nelson Mixed Media Art, will eventually have more courses available. The Geologic Abstract course is my first offering. I plan on creating teaching videos for many of the classes I teach at in-person workshops:

How to paint Abstract Tree Collage

How to paint Effortless Abstracts

Composition Bootcamp

How to paint The Paper Landscape.
