

## Course Syllabus and Overview

Congratulations on making a courageous first step towards a soul-strengthening, life-changing encounter with God. As your instructor, and a sojourner alongside you, I am confident that your time invested in the course will not be wasted. What I love about this opportunity that technology affords us is that I get to encourage you, equip you, and support you at your pace.

**Friend, there is no rule or expectation upon you for the speed in which you choose to complete this course.**

As you'll see below, the modules are broken into five different segments that line up perfectly with the content in *Meet the New You: A 21-day Plan for Embracing Fresh Attitudes and Focused Habits for Real Life Change*. While the book refers to each of the individual chapters by days, there is nothing stopping you from turning it into weeks.

I will provide you with a downloadable "Study Map" in each module, which will give you the option to complete the work over five consecutive days or five weeks, or switch it up depending upon your schedule from module to module.

Yes, this means it could take you 5 weeks up to 21 weeks to complete this course and that may seem overwhelming. Actually, the longer the journey, the more time you have to dig into each concept and savor your time with God.

When I think of the pace that would work best for me, I welcome the slow-and-steady wins the race concept, especially with my regular commitment to Bible study at church. Regardless, I hope and pray the content in the course flexes to your schedule and give you a sweet opportunity to encounter God afresh.

**May I suggest, too, that now might be a great time to invite someone to do this journey with you?**

It would make for a great mentoring or accountability partnership, as there is so much to discuss. As I often say, we are simply better together because God designed us to need not only Him, but each other.

Okay, onto the course details . . .
