(27) PROPOSED GRADES in CM

SCALE IN METERS

This is an illustrative design. All proposed structures such as driveways, patios, decks retaining walls, pools and any attached or free standing structures as well as any changes in elevation are to be approved by the applicable regulatory body prior to construction. Landscaping Advisors assumes no responsibility for the placement of any structure as detailed in this design. It is the responsibility of the homeowner and/ or hired contractor to follow specification standards and building codes and to obtain all approvals and permits prior to construction. This design is meant for 3d tutorial purposes only.
