

Digital Scrapper Premier 2023, Volume 6

Challenge & Inspiration for Lesson 1, Variation 1, Pattern Change

Create a scrapbook page featuring a shaped frame cluster that uses a textured paper from your own stash.

[Terms of Use](#)

NOTE: Please complete the lessons in the order they are provided.

Tips for completing this challenge:

- Create a shaped frame cluster just as you did in Lesson 1.
- Choose a coordinating plain, textured paper from your own stash and create a pattern with it.
- Replace the pattern in the frame groups with your pattern.
- If your document's file size gets to be too large, apply my Mask/Apply Clipped Layer action to the clipped layer. NOTE: This action does not work on photos or papers that are clipped to a group.

REMINDER! TIPS for Shaped Frame Clusters

- The Frames action will not work if you don't have the Patterns installed.
- Unless you're going for an eclectic look, I recommend staying with the same frame pattern throughout your page.
- When applying frames, start at the top of the base shape and work down.
- Randomly overlap the frame groups (both vertically and horizontally), some with a lot of overlap and some with very little overlap.
- Tilt just a few of the frames. Too much tilt adds chaos.
- Leave spaces where the base shape shows through.
- Do not keep the edges of the arranged frames smooth. They are meant to be jagged.

Finish your scrapbook page that uses this technique and [share it with us in Community](#).

When uploading your Save-For-Web page online, please add this to your credits:
