**Job 40:15-24**

<sup>15</sup> "Look at Behemoth, which I made along with you and which feeds on grass like an ox. What strength it has in its loins, what power in the muscles of its belly!

<sup>17</sup> Its tail sways like a cedar; the sinews of its thighs are close-knit. Its bones are tubes of bronze, its limbs like rods of iron. It ranks first among the works of God, yet its Maker can approach it with his sword. The hills bring it their produce, and all the wild animals play nearby. Under the lotus plants it lies, hidden among the reeds in the marsh. The lotuses conceal it in their shadow; the poplars by the stream surround it. A raging river does not alarm it; it is secure, though the Jordan should surge against its mouth.<sup>(NIV)</sup>

**HOLY BIBLE**

**Leviathan - Job 41:1-19**

"Can you pull in Leviathan with a fishhook or tie down its tongue with a rope? Can you fill its hide with harpoons or its head with fishing spears? If you lay a hand on it, you will remember the struggle and never do it again! "I will not fail to speak of Leviathan's limbs, its strength and its graceful form. Who can strip off its outer coat? Who can penetrate its double coat of armor? Who dares open the doors of its mouth, ringed about with fearsome teeth? Its back has rows of shields tightly sealed together; its snorting throws out flashes of light; its eyes are like the rays of dawn. Flames stream from its mouth; sparks of fire shoot out. (NIV)

**Bigfoot?**

**AIG**  
 In a biblical model of earth's history spanning only 6,000 years, it is possible that a *Gigantopithecus*, for example, could have survived to the present day. Although a young-earth creationist would not be surprised if one were found living, the likelihood of the creature surviving the post-Flood world, Ice Age, and humanity's spread from Babel is slim.
