GLODON 5D BIM MOTY AWARD 2024

This event is a key initiative by Glodon Malaysia, focused on fostering and advancing the application of 5D BIM in the field of Building Information Modelling (BIM).

This competition aims to elevate the status of skilled users and promote their expertise. By offering a platform for participating companies to showcase their capabilities, we believe it will effectively bridge industry gaps, fostering easier collaboration, sharing, and connections among stakeholders

CONTEST CATEGORY

CAT 3

BIM Rising Star Award

This award acknowledges emerging contractors / consultants who have recently integrated technology into task and project completion. This recognition celebrates their commendable efforts in adopting technological advancements to enhance efficiency and achieve successful project outcomes, despite being in the early stages of incorporating such practices.
