

Shopping portals to stack with

First, you should have already determined which programs work best for you from "Which points and miles are right for me?". After you determine your programs it's important you always compare them when choosing your portal when it comes time to making your purchase.

Here are a few questions you can ask yourself to help determine which of your chosen portals are the right fit on this particular purchase:

- Am I earning the most points and miles or cash back between my chosen programs?
- Do I need these points and miles or cash back, or would I be willing to earn less to help build up my account or work towards status?

Be sure to use CashBackMonitor.com to compare your chosen shopping portals before making the purchase.

Keep in mind there are more portals than what are included on this list. This list includes the shopping portals with the *most* stores. Meaning, you'll almost always be able to earn with them.

Shopping portals
