

Create Harmonious Color Palettes

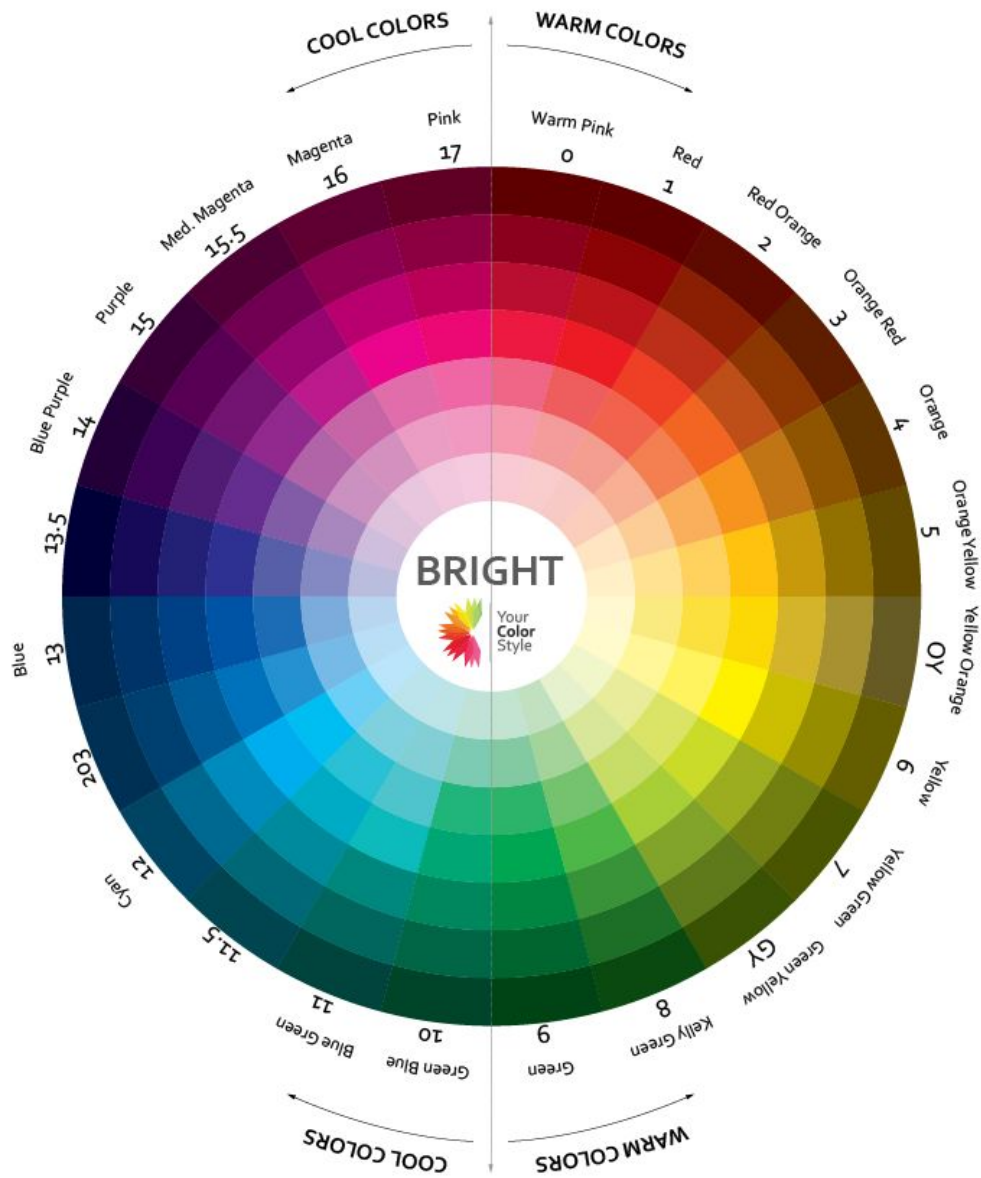

Harmonious Color Palettes

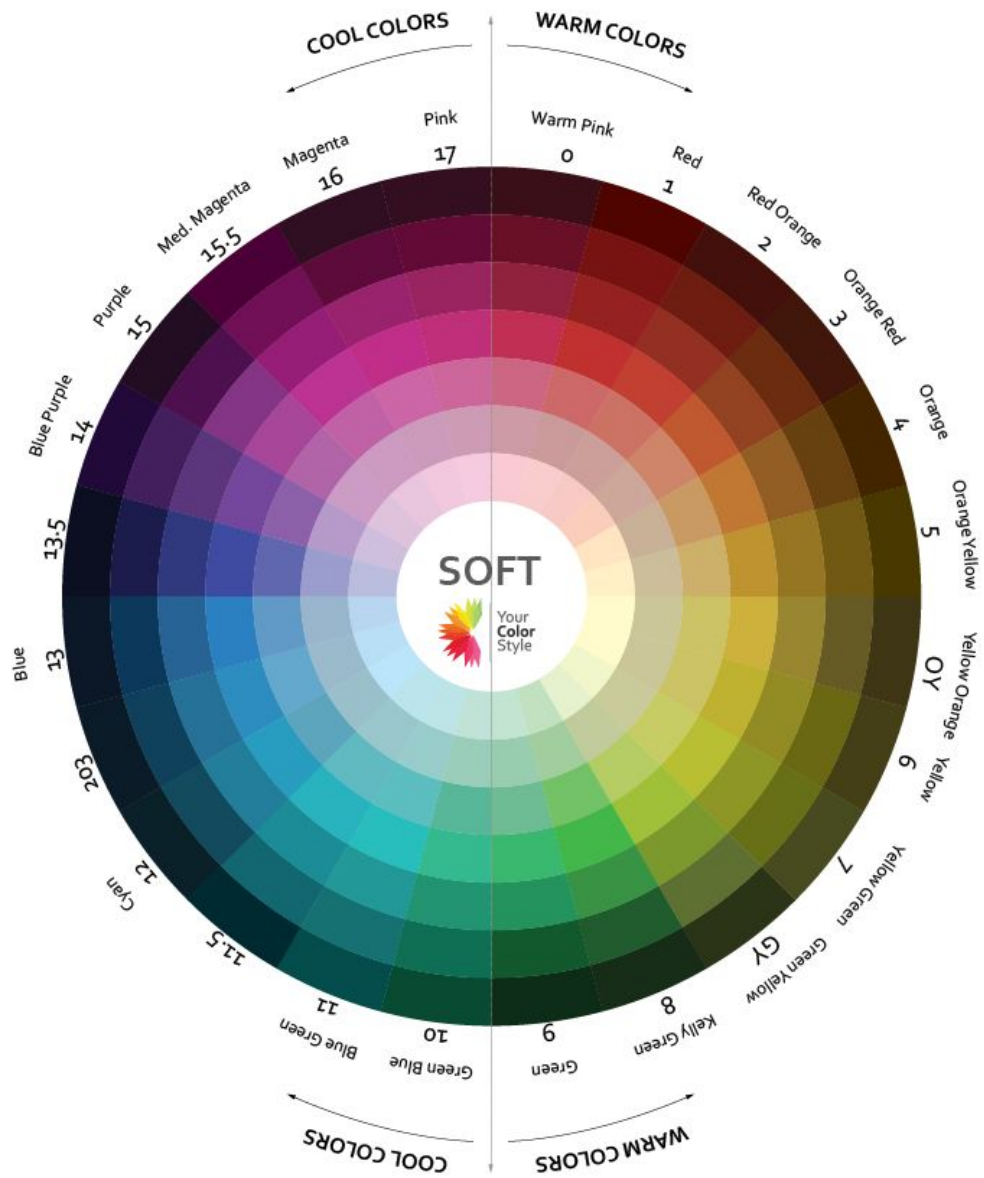

Harmonious color palettes are color palettes that have colors that are created from being mixed from each other. This is a common practice in art when you want your colors to create a cohesive look. The same can be true with the colors you choose to wear.

Imagine having a wardrobe based on a harmonious color palette. All the clothes you added would all mix and match with each other.

Creating a harmonious color palette based on colors you already have in your closet is a great way to discover other colors that you may not have thought of to add or combine.

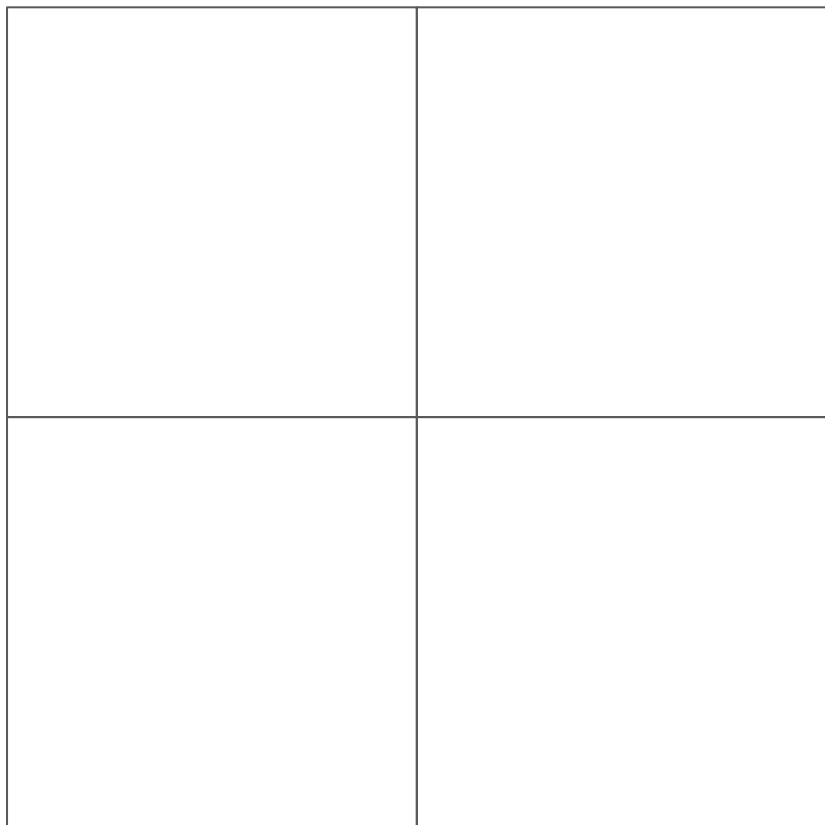

The next set pages are for you to take notes in, stick color palette swatches, color in or write in. Do whatever is useful and meaningful to you.

2 x 2 Color Palette

A Any color	A + B
B + A	B Any color

3 x 3 Color Palette
