

Lettuce

STORAGE

Store in fridge in a plastic bag 7-10 days.

PRO TIP

Having a big bowl of salad ready to go in the fridge puts you one step closer to having dinner on the table.

Baby Romaine

5-8 ounces of lettuce mix will fit perfectly into a standard 2 quart lidded Pyrex container and a 1 lb bag fits into a large lidded 4 quart container.

BABY ROMAINE

This is a great crispy addition to lettuce mix. It also makes a delicious Caesar salad, is the perfect topping on a BLT, or makes a delicious little 'lettuce boat'. Move over chips; baby romaine scoops bits of chicken salad, rice and beans, or thinly sliced grilled steak.

BUTTERHEAD LETTUCE

This tender lettuce is a spring delicacy. It is simply delicious for making wraps. Think taco bar, bar-b-que, or pulled pork...with butterhead lettuce as a wrap!

CROP AVAILABILITY

Lettuce Mix, Baby Romaine: May-October.

Butterhead Lettuce Spring: occasionally fall
