

## Power-Up Start Page

You're here because you are ready to power-up your garden care routine. First, you have to define your garden goal(s) for the year ahead. To help you with that, we're going to help you write your garden goal for the year!

First, choose from goal statement #1 (CREATE) or #2 (ADD) below, or maybe you want to use both statements. Next, pick the word from our choices that BEST represents what you want to do this year. Second, complete question #3. This statement will lead you to a better sense of how you want to accomplish that goal. Finally, re-write your new goal to include each part of your answer from #1/#2 and #3.

#1) I want to CREATE (a/an/my) \_\_\_\_\_ garden in 2020.

Flower	Herb	Pollinator
Sustainable or Eco-friendly	Container	First

#2) I would like to ADD \_\_\_\_\_ to my garden this year.

Colorful flowers	Plants with fun textures (soft, spiky, etc.)	Native plants
Low maintenance plants	Drought-tolerant plants	Shade-loving plants

#3) By the end of this year, I will know I accomplished my goal(s) because \_\_\_\_\_
