

# Yardage – Aves

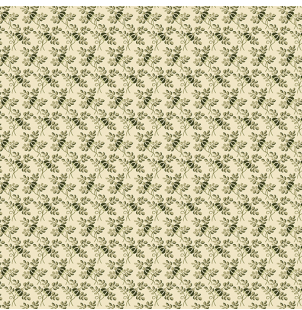

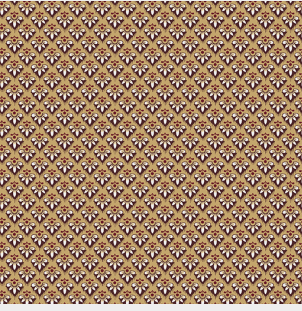

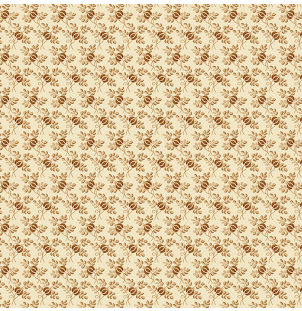

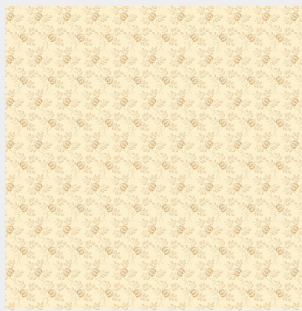

Aves is based on **three** coordinating colour ways. The illustrated quilt uses brown/yellow, red and green. You may choose any three colours you like. In the two main colours, you require a good gradation from Dark to Medium with four or five steps in tone (see Red and Green below).

The highlighted fabrics are the MAIN ones required. The quilt can be made in only these fabrics, then you don't have to buy as large a variety as I have listed; you just need to substitute one of the MAIN fabrics or colours when the time comes.
