AP Testing in May

Here's how AP Testing supports students:

- Providing free remote learning resources
- Development of a new at-home testing option
- Traditional face-to-face exam administrations will not take place
- Students will take a 45-minute online free-response exam at home
- Some students may want to take the exam sooner rather than later, while the content is still fresh
- Other students may want more time to practice
- For each AP subject, there will be 2 different testing dates
- The full exam schedule, specific free-response question types that will be on each AP Exam
- Additional testing details will be available by *April 3*.
