

SEED STORIES w/ Bevin Cohen

Learn how the living history of our heirloom seeds is just as important as the seeds themselves. In this video, Bevin shares exciting tales of heritage fruits and vegetables that have traveled the world, influencing the countries and culture that they encountered along the way. By saving and sharing seeds, we are also saving the history, cultures and stories of the many generations of growers that have tended these precious seeds before us.

Elements of Seed Stories:

The stories of species, place, variety and person

The History of our Heirloom Seeds:

Radiator Charlie, Grandpa Ott's Morning Glory, Fish Pepper, Kermit's Smoky Mountain Pole Bean, Larry's Large Cherry Tomato and more!
