

abstract color play supplies

acrylic paint

You will need three colors of acrylic paint PLUS white. Heavy body works best, but craft paint will do!

white fluid paint

Fluid paint will allow your colors to flow better and mix smoother. Simple craft paint works great for this due to its thinner consistency. I use Golden Fluid paint.

paper

Thicker paper such as Mixed Media paper or watercolor. Any size will do. I am using Canson Mixed Media (18X24) in the video.

brushes

A variety of brushes is always great to have. I tend to use flat brushes and a few rounds.

painters tape, etc.

In the videos, I use removable tape by Scotch. Any painters tape will work. You will also need a ruler, scissors or an exacto knife.

Optional: paint pens, gel pens, mark making tools.
