

# Transcription Answer

Here's the answer to the transcription exercise from the start of this eBook.

Play through the solo below to see how you did when you learned the solo, or part of the solo, by ear.

If you got the whole solo correct, great, congrats you're ready to move on to your next transcription.

If you struggled to get the notes, or had some errors in the notes in your transcription, don't worry.

Learn the solo below from the music, and then make notes on what you got right and what you missed in the transcription.

Then, work toward doing better next time to push yourself forward in your ear training.

Everyone has trouble with ear training at some point in his or her development.

But, if you work on transcribing consistently, and analyze your results for strengths and weaknesses, you move forward every day.
