

Module: Welcome to the Happily Hired Formula Program!

Introduction

Welcome to The Happily Hired Formula program, the comprehensive solution to guide you through A to Z of your job search process! I want to start by acknowledging you for investing in yourself, your personal growth, and your professional development. This single step alone tells me you're ready for positive change, and I am honored to support you through your career journey.

To get the most out of this program, I encourage you to set a pace that feels comfortable, yet challenging, for you. As your career is a marathon, not a sprint, you will have lifetime access to this course and its future updated contents.

I also want to make sure you're not making the mistake I see so many corporate professionals make. Many people create a resume and LinkedIn profile first, yet they have no idea what they want to do in their careers or what their life purpose is. While you can access the modules at any time, I highly encourage you to take this course in chronological order. Each module is a foundational building block to the next. For example, you can't start networking until you have your personal brand down. And you can't have your personal brand down until you have career clarity. As tempting as it may be to skip around, please make sure you have a strong foundation established before you build your career house.

Housekeeping Items

Each module contains video content, transcripts, and implementation guides.

Information vs. Knowledge vs. Wisdom

Former students have shared that they have re-watched modules and lectures multiple times because they really wanted to grasp the new information. While information turns into knowledge, wisdom is only gained when you apply what you learn and turn it into experience. This is my goal for you in this program.

For this reason, following specific lectures, you will find implementation guides. These guides are downloadable to print or you can type directly into the guides and save them as PDFs. It is critical that you complete these implementation guides to move you from **information into knowledge into wisdom through inspired action**. I cannot stress enough that passively listening

to each module is not enough. Career transitions and advancements can only be achieved through applying what you're learning into practice.

While learning is helpful, nothing beats support and accountability. If you haven't already joined our private FB community, join using the link found in the Text section of this lecture. This is a great forum to learn and gain support from others who are tackling similar career goals as you! I'm so proud of the community we've built and how willing everyone is to openly share their challenges and wins, as well as open up their networks! Our team will also be checking in on weekdays to make sure all of your unique questions are answered. Throughout this program, you can see me as your expert recruiter and HR professional who can give you targeted and pointed advice. There is no such thing as asking too many questions or bad questions.... Got a question about what you're learning? A strange email from a recruiter and not sure how to respond? What to reach out to someone you don't know and want help crafting the most amazing message? Ask and you shall receive massive support!

Finally, this program also includes monthly group coaching calls for ongoing accountability. You will receive emails with the times and dates of future calls. These calls are a great way to receive spot coaching on any inner blocks coming through. Whether it's confidence, clarity, direction, solutions... I'll be your life and career coach helping you shift out of whatever is keeping you stuck. If you cannot make it live, you may ask your questions in advance in the FB group and it will be addressed on the call. Each group coaching call is recorded and uploaded the day after the call and you have access to all previous sessions, too! But remember, you have 24/7 access to the Facebook group and can ask questions at any time.

Are you excited to land your dream job? Following this section, you will find a suggested reading list of my favorite resources I've pored over throughout the years. Everything from mindset to personal finance to leadership principles. These are only suggestions if you are looking for even more personal and professional development.

In the next lecture, you'll discover specifically where to start in this program based on your situation. I'm very excited to support you and I can't wait to help you hand in that resignation letter! Don't forget to join the Facebook group and share how you will celebrate once you land your dream job! I'll see you there!
