

ROCK YOUR CLASS MATH MINUTE

Definition

The study of numbers, patterns, space, and change.

Math Rap

Some find it fun, some find it strange
Math is the study of numbers and change
It's found in everything that matters
Like the study of space and patterns

Inspection & Reflection

- To add to your math knowledge you must subtract distractions, divide your attention, and multiply your efforts.
- Explain math in your own words.
- Is math more than just a subject in school? Why?
- What is your fav part about learning math?
- What professions use math on a daily basis? List at least 10.
