Flexible pricing

A COMPLETE WHITE-LABELED SOLUTION FOR BUILDING & TEACHING ONLINE COURSES

We've strive to make our Enterprise Plan the perfect balance of low cost, powerful features, and easy to use. We've made building your courses, managing your students, and taking instant payment as simple as using our WYSIWYG administrator interface.

Say goodbye to threading together multiple providers for web hosting, payments, video delivery, and analytics – we're happy to be the only solution you'll need.

Still want to use another provider for some aspect of the process? We make it easy to connect other services with our powerful integrations for Salesforce, ConvertKit, ActiveCampaign, and hundreds of others.

With us taking care of the details, you'll be free to dedicate your team's time to building high-quality content for your students, whether you're using Teachable Enterprise for internal training or taking payment for courses.

PREMIUM SUPPORT WITH A DEDICATED ACCOUNT MANAGER & CONCIERGE ONBOARDING

From the moment you sign up for an Enterprise Plan, you'll receive a dedicated account manager and you'll get their direct email address ensuring that any and all of your support requests are seen to ASAP.

Our account managers are friendly, helpful and product experts. Have a quick question about importing students? They'll be there for you. Need to get some quick help from our

developer team when building out an integration? Your account manager will get you the answers you need.

Your account manager will also walk you through our concierge onboarding process, helping you get your school set up so you can get to work without any trial and error.

- Dedicated account manager
- The highest quality customer service
- Concierge onboarding

EXCLUSIVE ENTERPRISE FEATURES

With our Enterprise Plan, you are getting everything Teachable has to offer. We're proud to offer instant payouts with no transaction fees. We allow you to link your own Stripe and PayPal accounts so that you can take payment directly while still handling refunds through our easy-to-use interface.

We also set you up with the capability to build multiple schools. Whether you're using this feature to provide your materials to students in multiple languages or to create different instances of your materials for clients, the ability to have multiple schools provides the flexibility you need.

You'll also gain access to our Bulk Student Importer, which you can use to add unlimited cohorts of students to your schools, making student management a cinch.

Finally, in addition to giving you access to our Account Creation API (currently in beta), you'll get priority access to our full API when it's available — we want you to have all the tools you need to manage your school.

- Instant payouts with no transaction fee
- Flexibility to create multiple schools for different interest segments
- Bulk student data importer easing student management

Need a feature not listed here? Talk to us — we're happy to hear what you have in mind.

FLEXIBLE ADMINISTRATION & COMPLIANCE PROCEDURES

We will work with your internal legal/compliance and procurement departments to supply needed documentation (e.g SLAs and NDAs).

Teachable Enterprise also includes customized invoicing, meaning we will work with your internal purchase order procedures and billing requirements to seamlessly integrate with your purchase and procurement flow.

- Will meet your internal & legal requirements
- Customized invoicing

ENTERPRISE PRICING: SIMPLE, AFFORDABLE & TRANSPARENT

Sick of reading through complicated pricing pages and paying for features you don't need? We make our pricing simple.

We don't believe in fees. No set-up fees, no support fees, no cost per course or bandwidth overages. It's all included – really.

We don't believe in paying for features. Even the lowest Enterprise tier includes all the Enterprise features, so no more paying extra for API access.

We don't believe in one-size-fits-all pricing. It leaves leaves a lot of users falling through the cracks. Our pricing is simple, but flexible enough to meet your needs and budget.

Our pricing falls into two tracks. Track one is for clients looking to sell their courses. Track two is for clients whose courses will be free, such as employee or customer training.

For both tracks, we track the relevant metrics (monthly sales or users) based on a trailing three month average. That means no worries if you have big pushes twice a year – you'll only pay more when you earn more or enroll more students and are free to drop down to a lower rate in slower months.

Does your business not fit neatly into either track? Let us know – we're happy to find something that works for you.

We're equally happy to take payment monthly, quarterly, or annually via credit card, check, or bank transfer. We're happy to discuss discounts based on non-profit status and/or annual payment – contact us for more details.

Included in our email to you is a link to schedule a time to speak with us. Please select your preferred time and we're happy to jump on a call and speak with you on how we can best serve your needs.

TRACK ONE: Based on Sales

MONTHLY SALES	PRICE
$0 - 25,000	$1,299
$25,000 - 50,000	$1,999
