

HYDRODERMABRASION FACIAL

AquaBoost

Improve hydration, texture and tone of the skin, deeply cleanse and purify, with no downtime.

AquaBoost is safe and beneficial for all skin types and concerns.

Treatment time:
60 mins.

Suggested price:
\$150 - \$200

Cost per treatment:
\$22-\$26

SAMPLE MENU DESCRIPTION:

Relax as AquaBoost's smooth dome-shaped treatment tip glides across your skin, deeply cleansing and exfoliating while saturating skin with an infusion of nourishing serums. Rich in antioxidants, hyaluronic acid, and peptides, these serums will plump fine lines while delivering glowing results. Cryotherapy and blue LED therapy soothe and calm the skin while encouraging pores to close.

Protocol:

CONTRAINDICATIONS:

- Pregnant clients should consult their physician
- Open lesions
- Accutane

STEP ONE: CLEANSE

Prosana Product:

- Refining Cleanser (PSN126)

- Cleanse the skin using 1-2 pumps of the Prosana Refining Cleanser
- Once the skin has been cleansed thoroughly, remove the cleanser with a hot towel

STEP TWO: TONE

Prosana Product:

- Refining Mist (PSN127)
- HydratingMist (PSN123)

Cover the eyes with a cotton round or esthetic wipe and apply:

Refining Mist:

- For skin in need of added exfoliation or dull, lackluster skin. Apply with a cotton round or esthetic wipe avoiding the eye area.

Hydrating Mist

- For thirsty skin in need of added hydration. With eyes covered, spray directly over the face or use a cotton round or esthetic wipe to apply.

STEP THREE: SERUM 1

Prosana Product:

- Cleanse + Exfoliate - Serum 1 (PSN130)

- Turn on your AquaBoost equipment.
- Using the AquaBoost Serum 1, cleanse and exfoliate the skin.

**Please refer to the Owners Manual for usage instructions.*

STEP FOUR: SERUM 2

Prosana Product:

- Deep Cleanse - Serum 2 (PSN131)

- Serum 2 is optional
- Perform another pass on the skin with Serum 2 to address excess sebum, or congestion.
- Commonly used in the T-Zone, around the mouth, chin and jaw, and around the nose.

**Please refer to the Owners Manual for usage instructions.*

Protocol:

CONTRAINDICATIONS:

- Pregnant clients should consult their physician
- Open lesions
- Accutane

|--|--|
| STEP FIVE: SERUM 3 <ul style="list-style-type: none">• Soothe & Hydrate - Serum 3 (PSN132) | Turning the suction back down, and the serum flow up, hydrate the skin using Serum 3 <i>*Please refer to the Owners Manual for usage instructions.</i> |
| STEP SIX: MASK Prosana Product: <ul style="list-style-type: none">• Prosana sheet mask of your choice | Apply a Prosana mask that best suits your guests needs and leave on for 8 minutes. Recommended masks include: <ul style="list-style-type: none">• Hyaluronic Acid Sheet Mask (HM4606)• 4-in-1 Full Face Crystal Collagen Gel Mask (HM4551)• Vitamin C Crystal Collagen Gel Mask (HM4569)• Neck Lift Crystal Collagen Gel Mask (HM4564) |
| STEP SEVEN: HAND MASSAGE Prosana Product: <ul style="list-style-type: none">• Nail & Cuticle Oil (PSN116) | While your client is masking, perform a hand and nail massage. |
| STEP EIGHT: REMOVE MASK | Gently remove the sheet mask. |
| STEP NINE: CRYO WAND | <ul style="list-style-type: none">• Feel the skin to determine if enough product remains on the skin to provide a slip for the Cryo Wand. If the skin is tacky, apply remaining serum from the mask package to the skin.• Using upward, circular motions, glide the Cryo-Wand over the skin moving from inside to the outside of the face. Spend extra time on any area of the skin that required additional extractions.• Do not make direct contact with the eyes. |
| STEP EIGHT: MOISTURIZE Prosana Product: <ul style="list-style-type: none">• Calming Balm (PSN129) | If skin is in need of additional moisture, apply Calming Balm to the face, neck, and décolleté. |
