

MENTORSHIP

WHY IS MENTORSHIP IMPORTANT?

Mentorship is one of the most important keys to success. Mentorship does not only include getting a mentor who can help with your career goals but also being a mentor to others who need help. In addition, mentoring others will allow you to grow and consider things from different perspectives.

HOW MANY TYPES OF MENTORS ARE THERE?

1-Situational mentor: someone who is more knowledgeable than you in general areas such as leadership. A situational mentor does not have to be in the same field as you.

2-Subject matter mentor: someone who knows more than you in a specific area such as oncology or surgery.

HOW DO I CHOOSE A MENTOR?

An effective mentor does not have to hold a prestigious title or be a well-known person. Mentoring goes beyond titles and positions.
