

What you need for this course?

Remember SharePoint is a browser-based tool where you need a browser to work with the Microsoft SharePoint.

If you are using Windows 10, then you can use browsers like:

- Microsoft Internet Explorer 11
- Google Chrome latest version
- Mozilla Firefox Latest version
- Windows 8.1, 8 or 7 Service Pack One

If you are using Windows 8.1/8/7 (SP1), you can use below browsers:

- Internet Explorer 11
- Google Chrome latest version
- Mozilla Firefox latest version

If you are using Mac OS 10.8 or later then you can use below browsers:

- Safari
- Google Chrome

Similarly, if you are using Linux OS, then you can use browsers like:

- Google Chrome latest version
- Mozilla Firefox latest version

We will focus mostly on the SharePoint online which you can do everything on the browser.
