

## Section 1: Jumping In

Now that you are done with the videos of section 1, let's assess your learning. Here, are a few questions, followed by 4 options, out of which 1 is the correct option. Select the right option and validate your learning! The answers are provided in a separate sheet

Q1. 1. Which one of the following file is used as a manifest file in rust?

- a. Cargo.lock
- b. Cargo.toml
- c. Target
- d. main.rs

Q2. In rust, which one of the following signed variable contains value from -8 to 7?

- a. 2-bit
- b. 1-bit
- c. 8-bit
- d. 4-bit

Q3. Which one of the following keyword is used to import function from an external module in rust?

- a. use
- b. extern
- c. mod
- d. fn

Q4. Observe the following code snippet. The given code is used to build a macro named maceg and then call it in the main function.

```
____ maceg{  
    () => (  
        println!("Hello Macro");  
    )  
}
```

```
}  
  
fn main() {  
  
    _____  
  
}
```

Complete the above code with appropriate keyword to print “Hello Macro” as the output.
