Section 7: A Real-time View into the Robot Simulation

Now that you are done with the videos of section 7, let's assess your learning. Here, are a few questions, followed by 4 options, out of which 1 is the correct option. Select the right option and validate your learning! The answers are provided in a separate sheet

Q1. Which one of the following is used by Handler to write a response?

    a. std::io::write
    b. std::write
    c. do::write
    d. Write

Q2. Which of the following technology is used to open an interactive communication session between the user's browser and a server?

    a. WebSocket
    b. TCP
    c. Socket
    d. Server

Q3. Which one of the following function is used to bind the server to the given SocketAddr?

    a. bind_secure()
    b. unwrap()
    c. accept()
    d. send()

Q4. Which one of the following is used to alter the client-side request in-order to add additional headers or change existing ones before calling send() ?

    a. Request.headers.set()
    b. connect_ssl_context()
    c. Request.header()
    d. Request.format()
