

## Make It Match

### Color Blend Mode Method: Homework Part 1 – Manual

©2020 Jenifer Juris

Now that you are comfortable with the Color Blend Mode Recoloring Method, it's time for you to practice on your own.

For this first homework lesson, I have provided these gray scale templates in the downloads for this lesson. There is a 7x5 inch card front and coordinating inside.

#### Homework Rules:

1. Complete the template using whatever papers from whatever kit you wish.
2. Pick one flower that falls under the Color Blend Mode Recoloring Method Usage Rules and make it into 5 different colors for this card. You can pick those colors from a kit or you can pick your own. Just make sure the colors go well together and aren't off putting.

Here's how I chose to finish the card. I kept it super simple so that the flowers would be the star. Feel free to put your own spin on it but don't go crazy with bold patterned paper here.

And remember, if you end up recoloring anything from your own stash, feel free to save the PSD file in the Recoloring Templates folder so all of your recoloring templates are in one place.
