

Setup | Tool Installation

■ Install – Windows

- ◆ rustup
 - Manages Rust installation
- ◆ Visual Studio Code
 - Coding environment
- ◆ MSVC C++ Build Tools
 - Needed to build on Windows

■ Install – Other Platforms

◆ Mac

- `brew install rustup-init`
- `brew install --cask visual-studio-code`

◆ Linux

- `curl --proto '=https' --tlsv1.2 -sSf https://sh.rustup.rs | sh`
- OR use package manager

◆ After package manager install:

- `rustup toolchain install stable`
