

SAT Practice Test Approximate Score Curve

Raw Score (# of correct answers)	Math Score	How to use this curve:	
58	800	1) Count up the # of questions you answered correctly on Math (No Calculator PLUS Calculator Allowed), Reading, and Writing and Language. Those three numbers are your raw scores.	2) Find your raw score on the table to get your section scores. Your “Evidence-Based Reading and Writing” score is the sum of your Reading and Writing and Language scores.
