

Worth a Thousand Words...

With just one look, a picture can evoke emotions where words cannot suffice. From images showing the miracle of childbirth and the beauty of God's creation, to images of great devastation due to natural disasters, pictures allow us the ability to see things we miss on a daily basis.

With the help of eVALUEator®, I am pleased to offer my clients the ability to "Screen It & Clean It." eVALUEator® is a comprehensive tool used to help investors view a moral snapshot of their portfolio holdings. Areas of concern include, but are not limited to, abortion, pornography and anti-family entertainment. You may be surprised to learn there are clean alternatives to the many commonly held funds.
