

Digital Scrapper Premier 2023, Volume 6

## **Challenge & Inspiration for Lesson 1, Variation 2, Underlying Letter**

Create a scrapbook page using one big letter from a word or phrase and a shaped frame cluster.

NOTE: Please complete the lessons in the order they are provided.

### **Tips for completing this challenge:**

- Single, large letters will work perfectly for this tutorial.
- Short to medium length words would also work, like LOVE or TRAVEL, or AMAZING.
- Keep your word's font chunky! Use Arial Black, Impact, Alfa Slab One, or Bevan.
- Only add a frame cluster to one letter of the word. Make that letter much larger than the rest of the word.
- If your document's file size gets to be too large, apply my Mask/Apply Clipped Layer action to the clipped layer. NOTE: This action does not work on photos or papers that are clipped to a group.

### **REMINDER! TIPS for Shaped Frame Clusters**

- The Frames action will not work if you don't have the Patterns installed.
- Unless you're going for an eclectic look, I recommend staying with the same frame pattern throughout your page.
- When applying frames, start at the top of the base shape and work down.
- Randomly overlap the frame groups (both vertically and horizontally), some with a lot of overlap and some with very little overlap.
- Tilt just a few of the frames. Too much tilt adds chaos.
- Leave spaces where the base shape shows through.
- Do not keep the edges of the arranged frames smooth. They are meant to be jagged.

Finish your scrapbook page that uses this technique and [share it with us in Community](#).

When uploading your Save-For-Web page online, please add this to your credits:
