Focus Games – Check Ins

This worksheet will help with some of your data you take while working with your dog. Below you will list the location you go to. Then you will list the 3 dates you go to that location and the data entry for each column. In the first column, list how many seconds it was before the first check-in. In the second column, list out how many check-ins you got in 2 minutes. Then in the notes section, list out any relevant information such as distractions nearby, the dog’s overall behavior and body language, etc.

Location 1: _____

Initial Check-In

Check-Ins in 2 Mins.

Date:

| | |
