Take the next step in digital tangling, learn how to create a digital mandala in Procreate with assisted drawing, and how to design and color an incredibly vibrant design using layers and blended brushes.

Intermediate/Advanced level skill.

REQUIREMENTS: take the Digital Tangling class or be familiar with basics of Procreate app.

• Ipad with Procreate app installed
• Apple Pencil or other stylus
• Screenprotector "Paper-like". I use Arxon brand, but this is not the best one available. This is needed otherwise the screen becomes too slippery
