People are feeling that they are no longer in control of their lives. At The Pillar Code, we focus on reconnecting clients to their Happiness, Health and Wealth as we re-align the conscious states by removing blocks that exist deep in your consciousness. The Connection Code "Re-coding your Life, Mind & Body"

The Pillar Code 12-Step Signature Program is delivered: Individually and online by a trained and Licenced Pillar Practitioner. As a non-invasive modality or healing program, recognised in 39 countries, we use various tools and techniques to quickly identify then remove the negative affects that are stuck in your subconscious and unconscious, which create negative patterns and sabotage you from reaching your potential of Happiness, Health and Wealth.

Don't be the next statistic: The World Health Organisation defines stress as "the reaction people may have when presented with demands and pressures that are not matched to their knowledge and abilities, and which challenge their ability to cope." It is not a disease. However, if stress is intense and goes on for some time, it can lead to mental and physical ill health (for example, depression, nervous breakdown, heart disease). Workplace stress, if not properly managed, is associated with poor health and well-being, lower productivity and increased sickness absence.
