Syllabus - RadOwl's Guided Course in Dream Interpretation

Welcome to Dream School. I hope you share my excitement and are ready to get started. You are about to embark on a one of a kind learning experience.

LESSON BUNDLE 1:

- 1. Top 10 Things to Know About Dreams video .5 hours
- 2. RadOwl's Crash Course in Dream Interpretation audiobook 2.0 hours

The video repeats much of what's in the audiobook. The audiobook is more detailed. Be sure to listen to the audiobook, or use the link below to download the ebook and read it (see: Coursebooks).

The Crash Course is your coursebook and the files are available to stream or download. Please familiarize yourself with it before our first session.

Coursebooks

A link to my Dream Interpretation Dictionary: https://archive.org/details/DreamInterpDictionary

When you visit those links you'll see that both books can be read online. You also have the option to download. The .epub version is the most easily searchable. A PDF is available too.

Use the *Dream Interpretation Dictionary* to do the leg work before our sessions. For example, if you have a dream that features your family home and parents, look up the entries for Family Home and Parents. Do the suggestions ring a bell with you, or not? Make notes in your Dream Interpretation Worksheet. Otherwise, I will be asking you the same questions you can answer yourself ahead of time.
