Gallery:

Use the chart above for the **quantities** of all the beads. The Gallery is provided simply to share the color numbers I used for my samples because I get a lot of inquiries about them. Sorry, I don’t have color numbers for the Drops, but hopefully the name will help in your selection.

Note about 15/0 seed beads: I’ve shown numbers for 15/0 seed beads that were purchased at my local bead store – they may **not** be the same as numbering used by Miyuki or Toho. However, I think many bead shops in the USA get their beads from the same distributor, so the numbers could be the same depending on where you purchase your beads. I think the color name will help you when choosing your beads.
