

## Before you try to use XML Assist

Before you use XML Assist you may need to do one or more of the following:

### 1) Enable XML Assist by checking References:

1. Open the XML assist file
2. Click on 'Developer' in the menu
3. Click on 'Visual Basic'
4. Click on 'Tools' in the menu and select 'References'
5. Make sure the six References below are ticked:

Once your References match the ones above, close the file and re-open. The file should now have the correct References.

### 2) Check 'Unblock' in Properties

When you first download the XML Assist file to your computer do the following:

1. Select the file with right click
2. Choose 'Properties' from the menu
3. Check the box 'Unblock'
4. Click Apply

You should now be able to open the file and run the macro.
