

# Hints for Accurate Nature Sketching

- \* Observe before sketching
- \* Light and loose
- \* Keep pencil moving
- \* Avoid erasing until correct line placed
- \* Glance back and forth to ground-truth
- \* Look at subject more than paper
- \* Envision sculpting from outside in
- \* Squint or close one eye to flatten 3-D objects
- \* Enjoy the process over the product.
- \* Have fun!!
