

Introduction to Voyager Coach

Voyager Coach is a revolutionary use of tarot as a proactive tool. It is an action process for creating the future to coach yourself and to coach others. It is deeper and more effective than a one-session Reading.

Voyager Coach is unique and different from other mentoring systems. This process uses the modern, multicultural, wholistic Voyager set of tarot as empowerment cards. These provide a universal, time-tested, and yet intuitive, synchronistically 'right for the moment' map for success. This is not old world, fortune telling. Voyager Coach is action-oriented "Fortune Creation."

Voyager Coach utilizes the value of tarot as a coaching tool in the following ways:

- **INTUITION**
A successful coach utilizes the genius of intuition, the proven way to empathically work with a client successfully. The intuitive surprises of the Cards that appear in the "Action Readings" enable one to break old habit patterns and beliefs from the past that have prevented the attainment of new results.
- **WHOLISTIC**
Voyager calls upon archetypal inner personalities as key resources, and the Deck's wholistic structure insures that you fully act with heart, mind, body and spirit — the only way for manifestation and fulfillment.
- **MAPPING**
Voyager Coach brings out, like never before, the universal, time-tested "maps for success" that the structure of contemporary tarot offers.
- **NEW THINKING**
This tool encourages outside-the-box metaphoric picture-thinking, as old thinking cannot solve the problems it has created. Be creative, innovative and go beyond the book explanations. Make up your own Readings and Action Maps.

- **MYTHIC**
Voyager is heroic and archetypal, giving a memorable picture story and motivation to realize goals and objectives.
- **SELF-MENTORING**
This system can be used by oneself for oneself.
- **FORTUNE CREATION TECHNOLOGY**
Use proven inner-self techniques of manifestation such as visualization, affirmation, repetition, ritual, and daily action.
- **SYNCHRONICITY**
Apply the magic of the synchronous selection of facedown cards and appearance of symbols as auspicious road signs for direction and guidance.
- **POWER OF THE PICTURE SYMBOLS**
The advantage of the Voyager system is that the picture-symbols on the Cards activate the extra-ordinary power of the subconscious mind and anchor retention of the message.
- **MYSTERY OF LIFE**
The Voyager process demands natural curiosity about the spiritual basis of life, which is the ultimate source of our magic and power. This spiritual perspective taps the natural genius of inspiration, the way for new and creative thinking that is authentic and soulful.

HOW VOYAGER COACHING WORKS

As a Voyager Coach, you meet with your client for a mutually agreed upon set of sessions. Sessions can be via internet, phone, or in-person.

Each session involves a consultation of the Cards. The Cards selected offer a set of actions, determined by the Coach in agreement with the client, to achieve an intended goal. Each Reading becomes an "action map."

It is suggested that as a Coach you also give the client The Magician's Ritual, a meditative/affirmation method for keeping the client on task and seeing results.

You determine which Readings (action maps) to use. Give your client a copy of the Reading with the cards selected and proposed actions.
