

NOTE WRITING TIPS

Writing and copying music speeds up learning to read notes. Remember my comment about Bach on the intro page? You will learn to read notes as easily as you are reading these words. Watch the video for some extra tips :-)

These are the notes you will be learning. We'll learn 3 at a time.

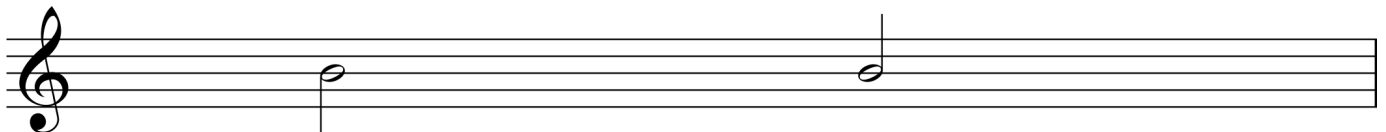

Staff lines - the mid staff line is red to help you get your bearings

Stems go up on right when a note is below middle staff line

Stems go down on left when a note is above middle staff line

If a note is on the middle staff line, stems go down on left OR up on right

Black or White... both kinds of notes are correct
