mySewnet™ Embroidery 2021
Silver, Gold, and Platinum

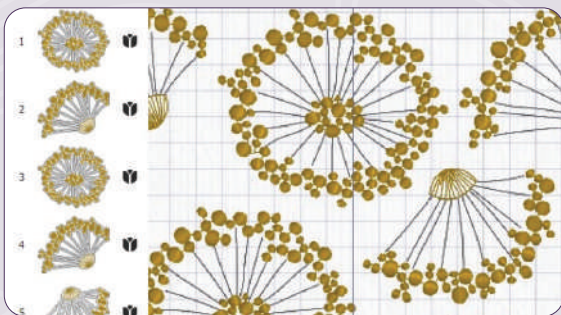

Silver 2021

Silver 2021 is for those who want to enhance, embellish and perfect ready-made designs.

Basic Operations

Start adjusting your embroideries with the basic features. Change colors, copy/paste, rotate, mirror, flip, and more with Basic Operations.

Filmstrip in Embroidery

Get a good overview of your designs on your workspace. Preview and manage the stitching order of the designs in your embroidery project. Improves your control of the design and lets you plan thread and color choices better.

Design Adjustments

Flip, rotate, resize, order, group and more. Resize designs, while keeping the same stitch density, group designs, align designs, move, rotate and flip designs as you choose.

Connected Features

Send and receive your designs from your mySewnet™ Cloud account and your mySewnet™ enabled embroidery machine.* Get a notification when there is a new update available.

Lettering

Add names and text to your design, using the beautiful built-in fonts or create your own. Select from 245 fonts in 18 categories, all specially designed for embroidery. Use the QuickFont Wizard to create new fonts automatically from any TrueType® or OpenType® font on your computer.

Super Designs

Add fun to your embroideries with more than 2,000 fully resizable Super Designs in several different styles like outline and fill.

Frames, Borders and Flourishes

Add these decorations to your design, choose from a large selection of premade designs. Elegant or simple lines, traditional or modern: the choice is yours with hundreds of decorations, 657 in total.

Encore

Multiply your designs in different shapes. The Encore function offers several tools for repeating and aligning embroidery elements to give the look of a border or frame.

Endless Assistant Wizard

Use the Endless Assistant wizard to create unique, continuous embroideries. Add alignment stitches to an embroidery so it can be stitched out in a continuous, regularly spaced sequence as many times as desired.

Split Project Wizard

With this easy tool you can divide a large design into multiple small ones with just a few clicks. Your designs are no longer limited to your embroidery machine hoop.

Platinum 2021

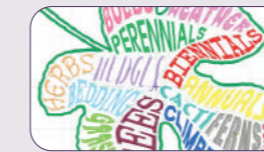

The complete collection of tools for full control of the creative process and the most wizards in the market.*

Everything from Silver and Gold plus these features:

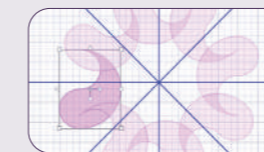

Wizards

The Platinum package includes 12 different wizards; from Endless Design, Express Design, and Spiro Design Wizard to Cross Stitch, Split Project and more.

Wordsculpt with Custom Shapes

Create your own custom shapes using the Draw and Paint module within *mySewnet*™ Embroidery Software. Then, with Wordsculpt, choose words to fill-in the shape to convey your idea. Add creative energy and distinct personality by changing outlines and choosing different fonts.

Draw and Paint

A full redesign of Draw and Paint is more intuitive and functional than ever. Create backgrounds for Digitizing and custom outlines for Wordsculpt without leaving the program. Draw and Paint is integrated right where it needs to be.

Appliqué

Visually add appliqué to your project. Draw with a freehand or point line to add the appliqué shape to your embroidery. Select from several fabric options or create your own.

Embellishment Tool, Ribbon Embroidery

Create your own embroideries with the perfect settings for the industry's only ribbon embroidery attachment.** Just draw the shape you want and you will get stitches with the perfect settings for ribbon embroidery. You can create entire ribbon designs or add ribbon to existing designs. Mix traditional embroidery and the new and unique ribbon attachment ribbons for truly unique, and personal results.

Stitch Editor

Reshape, restyle and improve your embroideries with ease. Edit your embroideries with a large number of object-editing features. Convert areas to different fill or satin types, add cutwork needle lines, color changes, stops and trims. Control the density before you split the design into pieces that will fit into your hoop. All this and more is available in Stitch Editor.

Split Design

Splitting large designs into smaller pieces has never been so easy. Split the embroidery design with even more precision in Stitch Editor. Modify the splitting lines to get the cuts exactly where you want them.

Digitizing with Three Creative Modes

The Platinum 2021 *mySewnet*™ Embroidery Software gives you the most control to digitize anything. The three different modes, Quick Create, Freehand Create or Point Create, let you choose the amount of help you want or need. Expand on your digitizing capabilities!

Sketch[^]

Release your inner artist and "draw" your own stitch paintings. Create embroidery stitches as if you are using a pencil or paintbrush. Add free-motion embroidery highlights and texture to your favorite pictures, fabrics and designs. Embroider your signature or use the calligraphy feature to create beautiful monograms.

Cross Stitch

Design attractive cross stitch embroideries with traditional quality and the speed of a machine. Create your own cross stitch patterns or use the Cross Stitcher wizard to create designs automatically.

Gold 2021

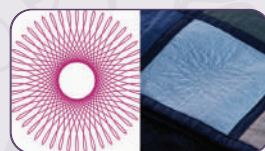

Digitize with minimal effort with step-by-step wizards guiding you through the creative process.

Everything from Silver plus these features:

Modify Tab

Start stitch editing with the Gold package. The Modify Tab has basic stitch selection tools to cut and paste parts of designs. Also add color and stop commands as well as individual stitches.

Spiro Design Wizard

Make new geometric designs to enhance your creativity. Some classic fun! Develop unique and playful embroidery designs. Play with a few simple settings and see exciting, multi-colored designs appear, or let the *mySewnet*™ software create a random one.

Wizards

Create traditional automatic digitized designs with the Express Design wizard that gives you step-by-step guidance. The Project in the Hoop wizard has built-in projects like cell phone cases, pouches and more. Create stippling to fill an area or stipple around a design with the Quilt Block wizard. There are a total of 11 different wizards in the Gold 2021 package.

Embellish

Decorate your embroideries visually with individual or lines of elements. Add decorations to your embroidery project and automatically get placement stitches for every decoration. Choose from beads, sequins and crystals in several different shapes, sizes and finish.

*When compared to other leading consumer market design editing software: Brother PE Design11, Embroidance Bundle, Embird 2019, Janome Digitizer 5.5, Floriani Total.

**Requires HUSQVARNA® VIKING® Ribbon Embroidery Attachment or PFAFF® creative™ Ribbon Embroidery Attachment.

[^]Available in the Windows® Embroidery software only.
