**WORKBOOK**

# WELCOME

Joy is a deep, enduring sense of happiness that arises from within. It is more than just a fleeting emotion; joy is a state of being that can be cultivated and sustained through intentional practices and mindsets. This workbook is designed to guide you on a journey of discovering and embracing joy in your everyday life.

## THE CONCEPT OF JOY

Joy is often confused with happiness, but they are distinct. Happiness is typically tied to external circumstances and can be temporary, whereas joy is an internal state that can be maintained regardless of external factors. Joy comes from living in alignment with your values, engaging in meaningful activities, and nurturing positive relationships.
