BSR Sir shared his experience of attending a 2 days free workshop by one of his mentors and the positive impact it had on the transformation of his life.

BSR Sir shared a story from the book, “The Alchemist”. The conclusion of the story is that if someone offers you something good in return for your good work, do not deny it ever, because the universe is offering you that particular thing through that individual so never deny it, because if you deny it may happen that in future you need something and the Universe may deny that thing to you. So accept everything with humble attitude and gratitude.

BSR Sir shared his personal experience when he wrote goals and his mentor laughed at the goals BSR Sir had written and his mentor said that the world is offering you an ocean of opportunities but you are taking just one tumbler from it. His mentor advised him to make big goals; goals that scare you, and think big and you will receive it. That day onwards BSR Sir has always written big goals and achieved them.

BSR Sir revised some points from yesterday’s session and also shared some testimonials and feedback from our viewers. BSR Sir shared about the chronic situation our country is going through due to Corona and the adverse impact it has had on our fellow countrymen. BSR Sir requested everyone to connect as many people as they can connect for them to be benefitted by this free workshop. Law Of Attraction – BSR Sir shared that subconscious has the power to give you anything/everything but you should know how to ask. Law of Attraction is law, so it’s universal; it applies on everyone irrespective of their social or financial strata. It is similar to law of gravity, if something is dropped from a height it will come down, irrespective of its shape, weight, mass etc. We learned yesterday that subconscious understands in pictures. When you use negative words, knowingly unknowingly we picture the negative images, there is a picture associated to every word you say and this happens because we are programmed in that way. This programming needs to be changed. When you use positive words, you get good images in your mind and your subconscious understands that image and delivers the same to you. The subconscious does not understand language, it only understands images. If you speak something negative use the antivirus Cut Cut Cut and How Wonderful.

BSR Sir shared the example of a radio to explain the concept of subconscious. To listen to the desired channel you have to tune into the frequency at which the channel is being broadcasted, similarly there is a frequency for everything. To achieve the desired things in life you have to tune your subconscious to the respective frequency at which that desired thing is. As a radio works on your command, similarly subconscious understands and acts according to your command, it does not understand good or bad.

Everything is already present in your environment; you simple need to reach that frequency to achieve what you desire. Money, fame, success everything is present around you at this moment, you are receiving simply based on the frequency you are at. You just need to change the frequency you are at to change the result. You are connected to everything in this Universe and everything in this Universe is connected to you.

BSR Sir shared how you can set your frequency to achieve the desired results or objects. **BSR Sir announced that whoever connects maximum people to this workshop, that one person will be awarded with a course worth Rs 51000/- absolutely free.** There is a simple way to check where your frequency is set at. In a day a human mind comes across more than 60000 thoughts. Simply analyze what feeling you get with a particular thought. If majority of thoughts you come across makes you feel happy, you are at a right frequency and if you feel sad and have a bad feeling with the majority of thoughts you are at a negative frequency. To change your thoughts change **your BSC** (explained by BSR Sir in the second session).

BSR Sir explained the importance of frequency with an example. If you have 10Rs you can purchase product worth Rs 10 only. To buy a higher value product you need to keep more money with you, similarly when you are at a lower frequency you will receive products or things which match that frequency, so to acquire something of more value you have to raise your frequency.

BSR Sir explained in detail, how you can raise your frequency with an example of an individual sitting in a restaurant and placing an order, the waiter reconfirms the order before serving you the food item ordered by you. Similarly Universe reconfirms your order before serving you with your desired product/thing etc.

We are **Actualizing** our orders/desires whenever we are **Visualizing, Vocalizing** and **Emotionalizing**.

Visualize + Vocalize + Emotionalize = Actualize

BSR Sir shared about Miracles and asked the viewers to volunteer to share their examples when they experienced miracles. Examples were shared. BSR Sir also shared the definition of miracles and how everyone can make miracles happen in their life.

BSR Sir shared his personal example of miracles that he has witnessed in his life. How he did business of around 35 lacs in a day, for the first time in his life and since then it is a regular thing. How he was able to purchase his dream house in one of the most expensive and lavish societies in Pune. BSR Sir also shared examples of some of his students who witnessed miracles in their lives.
