INTRODUCTION

ABOUT THE COURSE FOR BEGINNERS

In this COURSE you are going to learn using step by step *VIDEO LECTURES* how to apply watercolor techniques, color theory and watercolor materials. You will learn to combine different watercolor techniques and to develop your talent by numerous creative exercises. We will deal with the various topics and you should learn how to observe and notice various objects, as well as to find out what suits you most, still life, flowers, landscapes, birds or something else. This course lasts five weeks. In this course you will learn how to choose appropriate materials for watercolor painting, apply color theory to your paintings and mix colors from various pigments.

You will learn various application techniques in a painting, to create shadow and light.

And you will learn how to arrange compositions, you will learn about perspective and to paint beautiful landscapes, portraits, flowers, animals.
