Does a Kookaburra sit in the old Gum Tree?  
Do Koala bears really sleep and sleep?  
Does the sun shine hot, does it shine a lot?  
Does a Kangaroo hop, does a kangaroo hop?  
Does a Kangaroo hop, does a kangaroo hop?

2

Yes, a Kookaburra sits in the old Gum Tree  
And Koala bears only wake up to eat  
The sun shines a lot - it gets really hot  
Yeah the Kangaroos hop, Yeah the Kangaroos hop  
Yeah the Kangaroos hop, Yeah the Kangaroos hop

Chorus

In a land down under, it's upside down  
Summer is Winter, it's the other way round  
When we're going to bed, they're starting their day  
So let's say Hi the Australian way -  
"G'day Mate!"

3

I like Marmite on toast, they call it Vegemite  
Fancy bangers and mash? They're having 'snags' tonight  
What about yoghurt? YO-ghurt you mean!  
Is that Kookaburra really laughing at me?
