

Dear Student,

With this GAP intervention, we want to come alongside you guys and journey with you over the next three months.

We have come to realize over a period of **many years we were involved in mentoring and coaching a large amount of young people**, that something is missing. This missing factor is not having the wisdom and skills to move from dependence to independence, the new season you are moving into after school.

There so many voices which at the end of the day can cause a lot of confusion.

- What is my purpose and how do I overcome all these challenges of this new season in my life?
- How do I work with my finances?
- I am so easily offended how do I deal with it?
- Would I have the necessary life skills to persevere when the challenges of life come my way?

Integrity is basically non-existent out there in a world full of corruption and everybody for himself, how would I cope?

With all these questions above and there are many more, this is where we want to come in and help you by mentoring and giving you guys skills and tips that we have gathered through the years working with young people.

You are our next generation and we the older generation need you to take over the button and continue the race with good solid character.

There is a saying “don’t ask yourself what the world needs. Ask yourself what makes you come alive, and then go do it. **Because what the world needs is young people with character who have come alive”**

During this three-month online intervention, we will mentor and guide you through various modules, power points, self-assessments and assignments. Because it is online you can do it in the comfort of your own surroundings, but with the accountability factor worked into this by way of assessments and assignments.

We believe that after these three months you will definitely have a head start to your fellow peers.

We invite you to come alongside us by enrolling so we can pass on the knowledge and skills from lessons learned over many years of mentoring and interaction with 100's of young people.

Greetings

Mario Denton and Marius Andrews
