

Daily Walk: Leadership Orientation

This document gives guidelines and helpful instructions to who is leading this session of Grow

Grow: Daily Walk

Goals:

The goal of this class is to train people to develop a personalized and daily connection time with God. We go into depth on the why to do this, how to do this, what elements to incorporate and show two examples of people do this in real time.

Things to keep in mind:

- In this session it would be helpful for people to bring a journal and a bible to each week of class.
- The ministry times(Try It Out) will often be structured around people practicing connecting with Jesus personally during class time then coming together and discussing it.
- We encourage students to break into smaller groups of 4-6 for their discussion times so everyone has a chance to share.
- There will be homework(Bring It Home) weekly that is aim to create a habit of regularly connecting with Jesus.
 - There will be pre-created Email weekly to send out to encourage students to do their homework.
 - Weeks 2-5 Icebreaker will be about the homework they did the previous week.
