

Following up from our conversation today, please see below for what we discussed:

- 1. We changed the primary bathroom around in Unit 2, the sink and the toilet swapped locations. It also became larger so the tub moved.
- 2. The kitchen in Unit 4 changed from a <u>U shaped</u> kitchen to an L shaped kitchen with a movable island. This moved the sink and dishwasher.
- 3. The client has asked for more lighting in the clubhouse. Please see attached for where I think we can add some more disk lights. What are your thoughts on this?
- 4. Your M102 sheet is showing the incorrect background, please update.

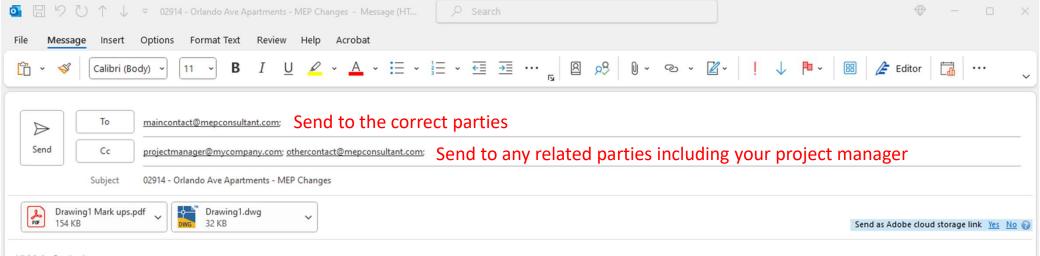

I have attached pdfs showing the changes as well as updated CAD files. We will need revised MEP pdfs by end of day Friday. Please make sure the date is updated to 7/14/20XX.

Let me know if you have any questions.

Thanks,

Your Name Job Captain
